OUR PROUD LEGACY

Gentex Corporation has been at the forefront of innovation for over 130 years, from product development to quality enhancement and performance. Gentex matters to the world because we provide safety to those out on the front lines; our military and our allies, law enforcement, first responders, and the industrial workers who keep economies moving in the US and across the globe. We build products that protect the people who protect and serve us – through our innovative helmet systems, respiratory protection, optics, and communications systems. We provide the best to protect the best.

**BEYOND THE PRODUCTS, THE SUPPORT
AND SERVICE THEY GIVE TO PREMIER
SAFETY IS TOP OF THE LINE!”**

STAY COMFORTABLE IN HIGH HEAT

FOUNDRIES/HIGH HEAT

Foundries and other high-heat environments can be incredibly challenging places to work. Our PAPRs are quick to don/doff with no belts or hoses to slow you down, providing the comprehensive protection and comfort you need to stay safe and productive.

Protection with the ESM+ PF60 PAPR

In high-heat environments, extra protection is essential. Our aluminized over hood and visor provide complete coverage from the neck up, giving you confidence and peace of mind.

Dalene Shaw, Quad City Safety, Distributor

PUREFLO PAPRS HAVE BECOME OUR BEST-SELLING PAPR FOR METAL CASTING DUE TO THEIR SLEEK ‘ALL IN ONE’ DESIGN. NO BELTS, NO HOSES.”

High Heat Protection

Facing extreme heat? We've got you covered with dependable protection when it matters most.

GENERAL TRADES AND TECHNOLOGY

From rail work, to manufacturing, to maintenance and repair, protecting yourself shouldn't slow you down.

Mark W., Premier Safety, Distributor

DELIVER ON SERVICE AND PRODUCTS TO
KEEP OUR CUSTOMERS SAFE AND HAPPY!"**

PROTECT YOUR LUNGS IN THE HARSHEST ENVIRONMENTS

Stay Safe with the PureFlo 3000

Even the simplest tasks can expose you to hazardous fumes. Whether you have facial hair or wear glasses, we've got you covered. No fit test required – put it on and get to work. Trust our easy-to-use PAPRs for dependable protection.

Next-Level Protection: ESM+ PF60

Different tasks require different levels of protection. With our configurable PAPRs, you get exactly what you need, when you need it. Whether it's a clear visor or a welding over hood, our all-in-one, reliable unit ensures you're equipped to tackle the job with confidence.

PROTECTION FROM HARMFUL FUMES

WELDING/ METALWORKING/ FABRICATION

Welding and metal fabrication put you at risk from harmful fumes like manganese, hexavalent chromium, and zinc oxide. You need reliable protection that lets you move freely and won't interfere with your work. Our easy-to-use solution ensures you stay safe from dangerous fumes without worrying about equipment getting snagged.

“
