The Bevco Difference

When your environment demands seating that can withstand long hours, demanding conditions, and daily use, ordinary chairs aren't enough.

Bevco polyurethane seating combines **rugged durability with ergonomic comfort** to help people stay comfortable, focused, and productive throughout the workday.

Built to Last

Durable, self-skinned polyurethane withstands tough work environments.

Designed for Comfort

Ergonomic contours and supportive designs reduce fatigue.

Easy to Maintain

Resists punctures, stains, grease, water, and most chemicals.

Configured for Your Work

Choose from a range of adjustments, heights, arms, bases, and casters.

Made in Wisconsin

American manufacturing backed by responsive customer support.

Lower Cost of Ownership

A seating investment designed for long-term value.

Features & Benefits

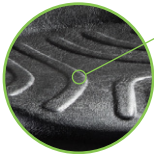

From production floors to precision environments, Bevco polyurethane seating delivers the durability, cleanability, and ergonomic support today's demanding workplaces require.

Rugged, self-skinned polyurethane resists stains and damage from punctures, grease, water, and most chemicals.

A waterfall seat edge supports lower-body circulation and comfort.

Ventilation ribs increase air circulation and improve overall comfort.

The pneumatic height adjustment allows for smooth and effortless changes to seat height.

Rugged. Ergonomic. Easy to Maintain. Built to Last.
