

MStainless Storage Cabinet with Clear Safety Glass

High-Capacity Sanitary Storage for Cleanrooms, Laboratories & Healthcare

Built-to-Order Precision: Every MStainless cabinet is manufactured to your exact wall space, aisle clearance, and height requirements as part of our standard production process—no custom surcharges. **Configure your build below.**

Key Benefits for Cleanroom & Lab Managers

- **Instant Visual Stock Checks:** Impact-resistant clear safety glass doors allow staff to verify supply levels without opening doors, preserving cleanroom air balance and reducing contamination risk.
- **Sanitary Sloped-Top Design:** Built-in sloped top cap prevents dust, debris, and unsanitary items from accumulating on top of the cabinet.
- **Reconfigurable Interior:** Adjustable stainless steel shelving adapts effortlessly as your storage needs, bins, or process tools change.

Compliance & Quality Standards: Engineered for cGMP-compliant facilities, ISO class cleanrooms, and FDA-regulated processing environments.

Technical Specifications & Configuration Options

Feature Category	Standard Build	Available Custom Options
Material & Grade	Type 304 Stainless Steel	Type 316L Pharmaceutical Grade
Cabinet Frame & Construction	TIG welded framework with sloped top cap	Fully TIG-welded double-wall construction, crevice-free seams
Surface Finish	#4 Sanitary Brushed Finish	Electropolished Ultra-Cleanroom Finish

Door Architecture	Impact-resistant clear safety glass with gasket seals	Single hinged, double hinged, or smooth-bypass sliding glass doors
Shelving Options	Adjustable solid stainless steel shelves	Perforated stainless steel shelves (optimized for laminar airflow)
Security & Hardware	Industrial stainless latching handles	Keyed cylinder locks, digital combination latches
Base & Mounting	Level stationary cabinet base	Industrial cleanroom casters or stainless leveling feet
Standards & Compliance	cGMP compliant design	Material test reports (MTRs) and submittal drawings upon request

Configure Your Build

Submit these three details for a rapid price turnaround:

- **1. Dimensions:** Width × Depth × Body Height (+ Sloped Top)
- **2. Material:** Type 304 (Standard) or Type 316L (Pharma Grade)
- **3. Features:** Hinged vs. Sliding Glass, shelf count, locks, or casters
