

MStainless Sanitary Custom Computer Workstation

Custom Stainless Steel Workstations for Cleanroom, Pharma & Industrial Facilities

Built-to-Order Precision: Every MStainless workstation is manufactured to your required dimensions and layout as part of our standard production process—no custom surcharges. **Configure your build below.**

Key Benefits for Facility & Production Line Operators

- **Tailored Ergonomics:** Available in fixed-height or push-button electric sit/stand models to reduce operator fatigue across multi-shift environments.
- **Maximum Sanitary Protection:** Built with crevice-free TIG welding and smooth stainless finishes that withstand daily chemical washdowns and stringent ISO cleanroom protocols.
- **Hardware Defense:** Encloses and organizes computers, touchscreens, scanners, and cabling—protecting critical electronics from dust, moisture, and high-traffic floor impacts.

Compliance & Quality Standards: Engineered for cGMP-compliant facilities, ISO class cleanrooms, and FDA-regulated processing environments.

Technical Specifications & Configuration Options

Feature Category	Standard Build	Available Custom Options
Material & Grade	Type 304 Stainless Steel	Type 316L Pharmaceutical/Marine Grade
Welding & Seams	TIG welded construction	Fully TIG-welded, crevice-free sanitary seams
Surface Finish	#4 Sanitary Brushed Finish	Electropolished Ultra-Cleanroom Finish

Work Surface & Cable Setup	Solid desktop with integrated cable channels	Perforated airflow worktops (laminar flow systems)
Ergonomic & Storage Add-Ons	Fixed lower shelf for CPU / Power	Pullout keyboard trays, sliding mouse pads, upper shelves
Enclosures & Security	Open frame architecture	Lockable drawers, enclosed CPU vaults, keypad latches
Base & Mobility	Station-level support structure	Industrial cleanroom locking casters or leveling feet
Standards & Compliance	cGMP compliant design	Material test reports (MTRs) and submittal drawings upon request

Configure Your Build

Submit these three details for a rapid price turnaround:

- **1. Dimensions:** Width × Depth × Height
- **2. Material:** Type 304 (Standard) or Type 316L (Pharma Grade)
- **3. Features:** Keyboards, drawers, upper shelves, or casters
