Welcome to the Boston Scientific preferred product listing pages. All the items here have been carefully reviewed by the Corporate ESD Engineer to ensure compliance with Boston Scientific standards and policies. If there are items required that are not on these pages please contact us to request they be added. This document will briefly discuss the items listed here and how to use the Q Source Website and some of it's unique features to save you time.

ESD Categories

ESD Measurement Instruments

Determine the sensitivity to ESD of devices being produced or handled, and confirm that static levels are lower than the critical levels

Ionizers & Accessories

Static charge can interfere with material and component handling in automated tools, causing stiction and jamming.

ESD Bags

Metal-In Open-Top Static Shielding Bag is a transparent, metallized static shield bag that provides a static safe environment for sensitive electronic devices. Please use standard PO process to order all bags.

ESD Chairs

Selecting the correct ESD chair may have additional requirements for your location please check with your EH&S TEAM if you require clarification

ESD Carts

Selecting the correct ESD chair may have additional requirements for your location please check with your EH&S TEAM if you require clarification

ESD Constant Monitors & Accessories

Continuous monitors provide operators with instant feedback on the status and functionality of their wrist strap. They detect split-second failures when the wrist strap is still in the “intermittent” stage.

ESD Mats & Accessories

Engineered to provide layers of protection in the workspace. Place all your items on it that are susceptible to ESD events with confidence.

ESD Floor Tapes & Signs

Keep your employees safe in their workplace have Items clearly labeled in the language of your choice.

Wrist straps & Ground Cords

Wrist straps drain charges from operators and a properly grounded mat will provide path-to-ground for exposed ESD susceptible devices.

ESD Home Kit

During the Pandemic we’ve all made adjustments, now bring ESD protection Home with our Home Kit

ESD Bins & Containers

Protect items in transit using ESD Bins and Containers

ESD Anti-Fatigue Floor Mats

Stand with comfort and Protection

ESD Gloves

Protection for your hands using gloves are that are designed for PCB handling at elevated temperatures that will not cause damage via static discharge.

Set Checkout Defaults

What are checkout defaults?

Checkout defaults are used for the Express Checkout from the shopping cart.

After you configure your defaults in this area, you can utilize Express Checkout from the shopping cart to complete the checkout process with your default settings.

This allows a faster checkout experience without the need to select an address, payment type, and shipping method for each checkout.

When utilizing Express Checkout, you may assign a PO to an order at checkout time.
