## SUPER ERECTA SHELF® STEM CASTER CARTS — SOLID SHELVES

- **Stem Caster Carts** combine Super Erecta Shelf® solid shelving features with the mobility of stem casters to provide a high-quality, strong and versatile material handling cart.
- **Variety of Casters Available:** Select the caster that allows the right combination of rollability and maneuverability to suit your requirements. Casters are available in swivel, rigid or brake types. All Metro casters are non-marking and come complete with a 3 1/2" (89mm) donut bumper. Refer to sheet #11.20 for additional caster information.
- **Strength:** Two-fold thickness of 18-gauge steel forms 1/8" (3mm) raised edges on all four sides of the shelving. This ship's edge gives all-around rigidity and high-strength. Sturdy aluminum castings firmly lock the corners to the posts.
- **Sanitary:** The raised ship's edge on all four sides and at the corners contains spillage, minimizes contamination and permits easier clean-up.
- **Fast, Secure Assembly:** Post has rolled, circular grooves along its entire height at 1" (25mm) intervals. A patented, tapered split sleeve (plastic or aluminum) snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Cart is assembled in minutes without the use of nuts or bolts and without the use of any special tools.
- **Adjustability:** Shelves can be adjusted at 1" (25mm) intervals along the entire height of the post.

## To Order By Components

1. Order shelves and mobile posts from catalog sheet #10.20 or price list.
2. Order stem casters from catalog sheet #11.20 or price list. Donut bumper comes with caster.

**IMPORTANT:** When ordering by components remember that stability decreases as the ratio of height to width increases. Units should be kept as wide and low as possible.
